

Fleet Risk

What is it?

Crucial to effective fleet management is an understanding of the risks inherent in running a fleet of any size. **We analyse in detail** the risks your drivers face and then help you minimise them through **managed change** and driver training where appropriate.

How will it help your business?

Risk management helps you **eliminate the risk factors** to which your drivers are exposed, ensuring you are operating within the law and that your fleet is managed with **minimum risk and maximum cost efficiency**.

Why Neva Consultants?

- We understand the risks inherent in running fleets of all sizes. We audit your fleet and analyse the associated risks.
- Where necessary, we'll implement a **bespoke driver training programme** based on the findings of the risk analysis.
- We maintain, monitor and review the changes to ensure **long term, sustainable improvement**.

Features:

- **Fleet safety audit**
Identify where your organisation is most at risk and advise how your fleet risk can be reduced or eliminated.
- **Driver risk assessment**
Build a detailed understanding of the risk factors to which your drivers are exposed.
- **Bespoke driver training**
Training programmes tailored to the individual driver.

Benefits:

- **Legal compliance**
Ensure that everything reasonable has been done to keep your drivers safe.
- **Direct cost reduction**
Reduce collision, running and maintenance costs.
- **Indirect cost reduction**
Reduce lost man hours and wasted management time.
- **Environmental impact**
Reduce the impact of your fleet on the environment.
- **Reduced insurance premiums**
Over time, quantify the reduction in claims, leading to lower premiums.
